

World Day of
Prayer and Action
for Children

A call for help to **WORLD LEADERS** on behalf of the **CHILDREN** of the **WORLD**

A Call for help to **WORLD LEADERS** On behalf of the children of the **WORLD**

Prime Minister - Respected Sir,

We, the children of India gathered for the World Day of Prayer and Action for Children 2023 in Mumbai along with over 700 of our friends to pray and discuss actions for ending violence against children. We would like to present this before you on behalf of the children of the world.

We, children are deeply saddened at the thought of our friends, fellow boys and girls suffering in war struck nations. War is an incurable disease, and a scar on any country's face. Wars don't prove who is right, but only who is left behind.

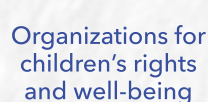

You are interested in proving your point through war, have you ever thought of the plight of the people or the children who suffer because of you? Their pain, their deaths, the violent acts that the children see around them, innocent children losing their parents, displaced from home, losing out on their education, when will they ever recover from the trauma? Whatever it is you adults are fighting for, do you really think it's worth all this destruction? Once seen, children always remember... So we ask can't you see this from the view point of us, children?

The basis of any healthy relationship is

If we are to reach real **PEACE** in this world
we shall have to begin with **CHILDREN**

in the name of

trust. We children are of a strong belief that if there is trust especially between nations, peace comes naturally. Nobody can win war, but anybody can win peace.

Are you hurt by hurting people ???

And when you say you fight for your country, you are actually demolishing your own country, with wars comes great damage, especially to the vulnerable, including us-children. It undoubtedly leaves a profound impact on our education, healthcare, safety and nutrition eventually leaving us behind with nothing but an ever lasting negative impact on our lives and minds.

We should be given the environment where we should be able to see our country flourishing and not getting destroyed in war, every country deserves this.

Our lives are in the hands of you, leaders. Through this letter we appeal to you to stop war and make us children a priority. Stop this damage, this pain, this struggle as we do not want to be victims of the aftermath of your decisions. We deserve to be in a peaceful society where our rights are safeguarded by you, the adults.

We hope this small letter changes your way of thinking and you to respond our call for help.
